

THINGS TO SEE AND DO

ACTS 2011 CONFERENCE - SEPTEMBER 28-30, ADELAIDE, AUSTRALIA

FRIDAY FIELD TRIP

11am - 3pm

\$60
BE QUICK!
limited places available

Two fantastic field trips to discover more about sustainability in Adelaide, cement networks and enjoy the local produce. These field trips (\$60 each) will provide bag storage and drop points in the city and at the Adelaide Airport (approximately 4pm). Please wear appropriate clothing and walking shoes for both trips. Bring a drink bottle and please let hosts know if you have any medical conditions or medication.

Field Trip 1: Sinclaire's Gully, Colonial Drive, Norton Summit

This winery is located within twenty six acres of endangered candelbark forest and is committed to the environment and sustainable land and business practices. A bus will take the group from campus through the Adelaide Hills to the property at Norton Summit. Grab a glass of biodynamic wine and hear from the owners about local land management, then put your walking shoes on for a 1 1/2 hour walk around the forest; 150 native plants and 60 native bird species to see. Lunch is provided at the winery with wine available from \$5 per glass.

Field Trip 2: Adelaide City Sustainability Tour

Grab a bike and join us on a tour of some of Adelaide's most intriguing sustainability sites including, Innova21 (University of Adelaide's 6 star, green star building), Adelaide Zoo green walls and Christies Walk Sustainable Village. A picnic lunch is provided in Adelaide's Botanic garden plus time to explore the Adelaide Central Markets.
