

Australasian Campuses Towards Sustainability presents the Towards Carbon Neutrality Workshop

The two day event will attract carbon management professionals from a cross section of industries, including tertiary education, local and state government, healthcare and businesses.

14-15 August 2017
Melbourne, Australia

ABOUT THE WORKSHOP

Climate change remains one of the single greatest environmental and social challenges that we face.

This workshop will provide detailed and practical insights on how organisations can take positive action and be part of the global response that is needed.

Featuring a range of industry professionals working in the Tertiary Education, Council and Healthcare sector in Australia and New Zealand, including those working within certified carbon neutral organisations, specialist service providers and relevant government experts.

The workshop will cover everything from developing a carbon emissions inventory, identifying solutions to reduce your organisation's carbon footprint, building the business case for certified carbon neutrality, selecting suitable finance options and tips on marketing your success.

Taking place at The City Convention Centre, located on Flinders Street in the heart of Melbourne's CBD, close to transport, cafes, restaurants and accommodation.

1.00	1.45	Lunch	
1.45	2.15	Communication and maximising engagement	Ed Maher
2.15	2.30	Recap and workshop close	

Certified Carbon Neutral Event

ACTS is excited to announce that this workshop will be delivered as a certified carbon neutral event under the Australian Government's Carbon Neutral Program.

This is another example of the options that are available to us to take leadership on the issue of climate change and fits perfectly with the workshop theme.

We'd like to acknowledge support received from two of our sponsors - CO2 Australia and South Pole Group - for making this possible.

ACTS WOULD LIKE TO THANK OUR SPONSORS

AND OUR SUPPORTING PARTNERS
